FEDERAL SUPPLY CLASS

FOREWORD

The Federal Supply Classification Listing is a cumulative listing of documents, alphabetically within Federal Supply Classification. A ready reference listing of all additions and changes since the previous supplement is contained in Part II, Section B.

The Department of Defense Index of Specifications and Standards (DODISS) is published under authority of the Office of the Under Secretary of Defense. Defense Materiel Specifications and Standards Office, and will be issued with supplements effective 1 September, 1 November, 1 January, 1 March and 1 May.

"The use of this Index is mandatory on all military activities. This mandatory provision requires that the Federal and Military specifications, standards, and related standardization documents be considered in identifying items for procurement actions. Since specifications, standards, and related standardization documents are subject to change, such documents should be reviewed for applicability prior to procurement use."

Comments or suggestions pertaining to the maintenance of this Index should be addressed to:

Commanding Officer
U.S. Naval Publications and Forms Center
NPFC 106
5801 Tabor Avenue
Philadelphia, PA 19120

NOTE

The DOD Index of Specifications and Standards (DODISS) is also issued by-monthly in Microfiche (imaged on 105mm film at a 48X reduction ratio). Each microfiche edition completely supersedes the previous Microfiche edition.

The DODISS Microfiche contains three (3) listings identified on the "eye readable" of each fiche as follows:

- a. DODISS Alphabetic Listing - Reflects all active documents alphabetically by nomenclature cross referenced to document number, document date, preparing activity and custodians.
- b. DODISS Numerical Listing - Reflects all active documents. New, revised, amended, changed and documents cancelled since previous Edition in document number sequence by document type are indicated by the letter "B" preceding the document number.

Cancelled documents in the Numerical Listing are indicated by an asterisk (*) preceding the document number. The letter "C" preceding the document number reflects cancelled items since the previous edition. Absence of superseding data in the title denotes cancellation without replacement.

The Numerical Listing contains all the documents presently listed in the "hard copy" DODISS (parts 1, 2, Appendix (Pt. 2) and FSC).

c. DODISS Federal Supply Class Listing reflects all current documents in FSC sequence (alphabetically sequenced by nomenclature within each (FSC) cross-referenced to document number, document date, preparing activity and custodians. The FSC List also reflects Reviewer/User and Validation information.

Availability of DODISS Microfiche:

DOD/DLA Activities are urged to advise Naval Publications and Forms Center (Code 3064) of automatic distribution requirements, in accordance with existing departmental procedures for distribution of the "hard copy" of DODISS.

Industry/Individual may obtain DODISS Microfiche from Navy Publications and Printing Service Office, Fourth Naval District, 700 Robbins Avenue, Philadelphia, PA 19111, on a subscription basis for a complete and updated DODISS (bi-monthly).

NOTE

Distinctive Numbering of "Hard Metric" Standardization Documents. The symbol "DOD" replaces the symbol "MIL" in new and revised specifications and standards covering "hard metric" or "hard converted" items, and other distinctly metric documents, as opposed to documents for "soft converted" items. The purpose is to provide ready identification of metric documents.

NOTE

Some Military Standards or Specifications use a voluntary standard identification as part of the title. Such Military documents detail unique modifications to the identified voluntary standard for DOD use. When ordering such a document it is necessary to also order the voluntary standard separately. For DOD, the voluntary standard is available from NPFC; for all others the voluntary standard should be ordered from its issuing organization.

GENERAL PROVISIONS

1. This publication lists the unclassified Federal, Military and Departmental specifications, standards, and related standardization documents, and those Industry documents which have been coordinated for DOD use.
2. Revisions are indicated by a suffix letter to the basic number, except for Air Force-Navy Aeronautical Standards (Sheet Form) and Qualified Products Lists which indicate revisions by a suffix number.
3. Amendments are indicated by a suffix number in parenthesis to the basic number.
4. The number of a Qualified Products List is the number of the specification to which it is related. Specifications for which Qualified Products Lists are required are indicated to the left of the Specification number as follows:

Q - Qualified Products List issued.

NQ - Qualified Products List not yet issued.

5. In the active section under the column headed "DATE", the date listed is that of the latest issue (Revision or Amendment). Notices and Interim Amendments are indicated below the document number without a date. Change Notices are indicated

with the date of the latest change in the date column. In the active section under the column headed "DATE" the date listed for Industry Documents is the date of the Acceptance Notice (date of DOD Adoption). The Acceptance Notice is part of or attached to the Industry Standard adopted and the notice states "Date of Specific Issue Adopted". Date appearing after title is the date of Specific Issue Adopted. In the cancelled section under the column headed "Date" the date listed is normally the date of cancellation.

6. "L" to the left of the document number indicates a limited coordination document.

"E" to the left of the document number indicates an exception applies to Industry Documents and a Military Specification/Standard has been established citing the exception data.

7. The asterisk (*) preceding and FSC number is an indication that other FSC's apply.

8. The following control symbols pertain to Federal Specifications, Standards and Qualified Products Lists only and appear immediately preceding the "Preparing Activity" column in the parts of this index indicated:

- The double dagger identifies Federal Documents for which no official DOD interest has been registered.
- * - The asterisk (*) identifies Federal Documents for which DOD has a coordination interest.
- % - The percent symbol (%) identifies Federal Documents for which DOD has waived coordination interest.
- / - The slash symbol (/) identifies Federal Documents prepared by a DOD activity.

9. Certain conventions of punctuation which depart from the normal rules of English have been used. These are as follows:

<u>Normal Symbol</u>	<u>Name</u>	<u>Character Printed</u>	<u>Example</u>
;	Semi-colon	,	
:	Colon	,	
" "	Quotation marks	, ,	, BAR,
'	Apostrophe	space	men s

9A. Distribution Statements on Technical Documents

In accordance with the Department of Defense Directive 5230.24 of 20 November 1984, a Distribution Statement is required on all standardization documents.

Documents listed in this index with other than distribution "A" will appear as follows:

Example: MIL-I-00000 Title: (Submit all requests via the
DISTRIBUTION STATEMENT "B" Preparing Activity for approval)

Documents with no distribution statement annotated below document identifier are considered as distribution statement "A".

10. The codes listed in paragraph 11 are assigned to identify the activities of the military services and appear in the columns headed "PREP" indicating preparing activities and "CUST" designating custodians of specifications or standards. These codes will also identify Reviewer and User activities as explained in paragraph 13. Military Coordinating Activity for a Federal document which was prepared outside the Department of Defense or an Industry Document is denoted by an asterisk "*" preceding the Preparing Activity column.

12. The absence of a custodian notation for any listed document indicates that the department has no existing requirement for the products or service covered by that document. The document is therefore not applicable to the procurement of that department unless specifically invoked in contracts or orders.

13. Review and User information has been included in this publication to the extent that such information is available from the military services. This information is to be used by military activities for controlling distribution of drafts of documents as specified in Standardization Manual 4120.3-M. For this purpose, review and user definitions are as follows:

REVIEW ACTIVITY - An interested activity using or planning to use a document and having a justifiable requirement to review the document in draft form, based on essential technical interest and responsibility in the document not reasonably susceptible to waiver.

USER ACTIVITY - An interested activity using or planning to use a document by not having a justifiable need to review the document during coordination.

This data is listed by department (Army, Navy, Air Force, Defense Supply Agency and activity code as follows:

USER AT SH MC

REVIEWER MU AS 99 ES

14. A form for requisitioning standardization documents, DD Form 1425, Specifications and Standards Requisition, is available through the forms distribution systems of the Army, Navy and Air Force. The use of DOD Form 1425 which includes a gummed label for pre-addressing by the requester will insure more expeditious service. However, all requests will be honored despite the requisition form. All requests for Specifications, Standards, Handbooks, Qualified Products List, International Standardization Documents and other DOD, Army, Navy and Air Force Standardization documents listed in this index, except as noted on page ix, should state the identifying number and title of the document and be submitted to:

Commanding Officer
Naval Publications & Forms Center (NPODS)
5801 Tabor Avenue
Philadelphia, PA 19120

Exceptions:

a. Military activities having a requirement for automatic distribution of standardization documents in specific FSC's and Areas should refer to Defense Standardization Manual 4120.3-M (Chapter III, Section 9) for information.

b. Copies of cancelled or superseded documents required for contractual purposes will have to be obtained from the contracting officer of the concerned service.

c. Industry standardization documents adopted by DOD will not be furnished by the Naval Publications and Forms Center to commercial concerns. Copies of these documents may be purchased from the appropriate Industry Association.

d. Security Classified documents are available only through the proper releasing authorities within the military services on a "need to know" basis. Departments of the Navy and Air Force Classified standardization documents are

stocked by Naval Publications and Forms Center, Philadelphia. Requests for the specifications should be submitted to NPFC Philadelphia via the preparing activity of the document. Not all Department of the Army Classified Standardization documents are stocked by Naval Publications and Forms Center, Philadelphia. Army activities requiring classified documents should normally be made aware of the source upon determination of their "need to know". If the source is unknown, submit requests to Commander, U.S. Army Materiel Development and Readiness Command, ATTN: DRCDE-E, Alexandria, VA 22333.

15. Federal Standardization Documents are available for reference at General Service Administration Business Service Center and some Federal Government Depository Libraries. Federal Standardization Documents (single copies, priced or otherwise) are available from:

General Services Administration
Specification and Consumer Information Distribution Section (WFSLS)
Washington Navy Yard, Bldg. 197
Washington, DC 20407

16. Automatic mailing of standardization documents listed in this index is available to non-governmental activities. Subscriptions will be accepted by the Director, U.S. Navy Publications and Printing Service, Eastern Div., 700 Robbins Avenue, Philadelphia, PA 19111 based on Federal Supply Classification (FSC) reflected in DOD Handbook H2-1 and Area Assignments reflected in para. 18 below. Subscription to an FSC entitles the subscriber to a copy of all new and revised documents to appear in this index bearing the applicable FSC except any document marked "For Official Use Only" or any document on which the Military Preparing Activity has placed a restriction on the document requiring approval of issue by the Preparing Activity to other than DOD activities. Contact above address for current service charge per supply class which will apply without regard to the number of documents which may be issued within the class. Certified bank checks or Postal Money Orders must be made payable to the Treasurer of the United States.

NOTE: International Standardization Documents listed in the Department of Defense Index of Specifications and Standards (DODISS) are not available to private industry on a subscription basis. These documents will be issued to private industry on an "as needed" basis from shelf stock. These documents are identified in the DODISS as ISDD, ISDA, ISDN and ISDF under the FSC.

NOTE: To obtain by subscription the documents in this index with an FSC symbol of two numeric characters suffixed with "GP" (ex: 16GP), the requester should subscribe to the first numeric FSC listed under each group in DOD Handbook H2-1.

NOTE: Subscription to this Service does not relieve Contractors of the responsibility for application of specification of appropriate data in complying with Military contracts.

17. A complete file of Specifications, standards, and qualified products lists indexed in this publication will not be furnished by the Military Departments to any non-military activity.

18. The following symbols are used in lieu of Federal Supply Classification where a class is not applicable, (FSC) Codes (numeric) reflected in this index are listed and described in DOD Handbook H2-1.

<u>SYMBOL</u>	<u>DESCRIPTION</u>	<u>PROGRAM PLAN APPROVED DATE</u>

"Copies of approved program plans are available on request from NPFC. They are not issued on a subscription basis."

*AREA "TELE" is for indexing purposes only. It is not a DOD AREA Assignment.

19. International Standardization Documents have been included in the DOD Index of Specifications and Standards. They are identified under areas ISDD, ISDA, ISDN, and ISDF (International Standardization Documents sponsored by DOD, Army, Navy and Air Force respectively). However, ISDD, ISDA, ISDN and ISDF are symbols identifying the documents as being other than those in the FSC Classes and Areas reflected in the Standardization Directory (SD-1). Questions relating to International Standardization Documents should be referred to the respective Departmental Standardization Office (DEPSO) reflected in the SD-1.

20. Colloquial item names may be related to the approved item names which appear in this index through use of the cross-references that appear in Cataloging Handbook H6-1, Alphabetic Index of Names.

21. "DODISS lists those industry standardization documents which have been adopted officially by the Department of Defense. Other standardization documents developed by Industry, which may contain useful information, are listed in "An Index of U.S. Voluntary Engineering Standards" prepared by the National Bureau of Standards. This NBS publication is available "Prepaid" from the Superintendent of Documents, Washington, DC 20402 or from local U.S. Department of Commerce Field Offices (Order by title citing SD Catalog No. C13.10:329). Microfiche copy may be ordered "Prepaid" from the National Technical Information Service (NTIS) Springfield, VA 22151, as NBS Spec. Publ. 329."

22. The Federal Information Standards Publications (FIPS PUBS) series is the official publication media within the Federal Government for information relating to standards which are adopted and promulgated under the provisions of (1) Public Law 89-306, "The Brooks Bill", an act to provide for the economic and efficient purchase, lease, maintenance, operations, and utilization of automatic data processing equipment in Federal departments and agencies, and (2) Bureau of the Budget Circular A-86 entitled "Standardization of data elements and codes in data systems". FIPS PUBS are available to commercial concerns from the National Technical Information Service (NTIS) Springfield, VA 22151.

23. The President, in Executive Order 11612, has ordered each Federal department and agency to establish an occupational safety and health program. The program, among other things, shall implement and conform to safety standards issued by the Occupational Safety and Health Administration (OSHA) under the Secretary of Labor. These standards are published in the Federal Register, CFR Title 29, Part 1910 and are not in a form suitable for individual indexing, printing, stocking and distribution by the DOD Single Stock Point at the Naval Publications and Forms Center. However, the Bureau of National Affairs, Inc. has published an Occupational Safety and Health Reporter Reference File covering OSHA Safety Standards. Interested activities may contact Customer Relations, Bureau of National Affairs, Inc., 1231 25th Street, N.W., Washington, DC 20037 to arrange for copies of the Reference File.

HOW TO ORDER SPECIFICATIONS AND STANDARDS

A request can be sent in by TELEX, Telephone Order Entry System (TOES), telephone for an emergency air express shipment or by mail in any form.

All request should include the following information:

1. Your customer number or your CAGE number (formerly FSCM). If this is your first order and you do not have a CAGE number, a customer number will be assigned for future orders.
2. Indicate your complete mailing address, include and special "mark for" information required to identify the order when received.
3. List each desired specification or standard by document symbol as recorded in the Department of Defense Index of Specifications and Standards (DODISS), e.g., MIL-A, MIL-STD, MS, QPL, etc.
4. Indicate quantity desired. The maximum quantity issued per item is two (2) each unless the customer states a need in connection with a specific solicitation or other procurement action, in which case up to ten (10) each can be issued. See note at end of Section 3 on reproduction of specifications and standards.

5. All standardization documents in a Federal Supply Class (FSC) may be ordered by submitting your request to NPFC 1062, Special Assistance Desk, a processing charge may be requested according to the amount of documents within the FSC. If so, you will be advised.

Mail to: Naval Publications and Forms Center
5801 Tabor Avenue
ATTN: NPODS
Philadelphia, PA 19120-5099

Telephone Order Entry System (TOES) - (215) 697-1187
TELEX - 834295
Western Union - (710) 670-1685
Telephone (recorder) - (215) 697-3321 (express shipment or pick-up only)

Inquiries (Do not use for requests) (215) 697-2667
Operators are available Monday thru Friday 8:30 a.m. to 5:00 p.m.
(Eastern Time)

Telephone Order Entry System (TOES) - (215) 697-1187

To use TOES you must first obtain a customer number. If you have already used the Navy Print on Demand System (NPODS), a customer number was assigned and was shown on the shipping invoice or the status letter. If you have not been assigned a customer number and your request is urgent, you may obtain one from the Special Assistance Desk, (215) 697-2667.

When placing an order, utilizing TOES, you must use a touch tone telephone. Since the telephone does not have the letters "Q" or "Z", TOES allows you to replace the letter "Q" with the number "7" and the letter "Z" with the number "9". As an example, to order MIL Q 9858, you will input mil 79858. With this system you may place an order and receive immediate status or follow-up on a previous order.

Three easy steps:

1. Obtain a customer number.
2. Telephone access (215) 697-1187.
3. Available time 8:00 a.m. thru 8:00 p.m., Monday thru Friday, Eastern Time.

AIR EXPRESS SHIPMENTS OR PICK-UP SERVICE (215) 697-3321 only

Orders will be shipped by air express at the customer's expense. Place your orders thru telephone recording system available 24 hours a day, seven days a week. You must include your account number with the company that provides the service for you. This service will effect shipping time only.

INQUIRIES/FOLLOW-UP (215) 697-2667

Customer service telephones are available to assist you with special inquiries about out service or status on orders previously placed. Your orders will not be accepted on these lines.

HELPFUL HINTS

- All amendments and revisions will be automatically issued with the basic specification.
- Only the specification requested will be issued. Documents referenced within a specification must be requested individually.
- Slash sheets, such as MIL-E-1/306B must be individually requested by document number. Slash sheets will not be issued as a set.
- Industry standards must be ordered from the preparing technical societies, not NPFC Philadelphia.
- NPFC Philadelphia stocks only current specifications and standards listed in the DODISS.
- Superseded or cancelled specifications are not stocked at NPFC. These specifications must be requested through the procurement or contracting officer of the military activity citing the need for the document.
- Do not submit a request for a specification citing a national stock number of an item covered by the specification. NPFC has no method to cross reference a national stock number to the applicable specification number.
- NPFC Philadelphia does not maintain a file of Invitations For Bid. Requests For Proposals, contracts, etc., so each individual request must list the document number desired.
- When submitting multiple requests, place the mailing address on each request form.
- NPFC issues only printed documents. We do not maintain microfiche, etc.
- If handscribed requests are to be submitted, please use black or dark blue ink only.
- Information concerning obtaining full sets of DID's and subscriptions is contained in the AMSDL, DOD 5010.12L, available from NPFC.

Information concerning the intradepartmental distribution of this index may be obtained from the following:

Army: Commander, U.S. Army Armament Munitions and Chemical Command,
ATTN: AMSMC-TDA-S(D), Dover, NJ 07801-5001

Navy: Commanding Officer, Naval Publications and Forms Center,
Philadelphia, PA 19120

Marine Corps: Quartermaster General, Headquarters, U.S. Marine Corps,
Washington, DC 20380

Air Force: Commander, Wright-Patterson Air Force Base, Receiving and
Distribution Section, ATTN: 2750 EDAA, Wright-Patterson Air Force Base, OH
45433

For sale by the Superintendent of Documents, U.S. Government Printing Office,
Washington, DC 20402

Subscription includes basic issues Part I and II with cumulative bi-monthly
supplements for each Part.
